

## **Sports Clubs – Tax Boost**

Amateur sports clubs are to be handed tax breaks which will see the amount they can earn tax free in income and rent increased from £30,000 to £50,000 and from £20,000 to £30,000 a year.

More than 40,000 clubs could benefit by being able to keep up to £80,000 in revenue from their bars, cafes and hiring out facilities before having to pay any corporation tax.

Clubs will also receive deductions to better support players with fees and expenses, and businesses will be able to donate to sports clubs tax-free for the first time.

Corporations and local businesses that give money to sports clubs will be able to offset their donation against their corporation tax bill, encouraging larger donations.

To qualify for the tax reliefs clubs cannot charge more than £31 a week in membership fees, as well as offering reduced rates for the less well off.

The tax benefits come from an extension to the Community Amateur Sports Club (CASC) relief scheme, which now allows clubs to generate up to £50,000 from trading and £30,000 from rental incomes.
